

Air 1 is an extremely important part of our local community. It is an important outlet for the youth of our community. I am a teacher at a high school and at least 1/3 of our high school population listens to Air 1. If we were to lose Air 1, it would be devastating. It is a very positive and motivating station. The lyrics are great. There is no profanity and the music style is extremely diverse. I believe the service provided by Air 1 is in the public interest because it helps to reinforce the moral values that our country needs. It is also a wonderful evangelical tool. With the Christian faith being shot down in many public venues, it is important that we are allowed to hang on to the ones we have. Obviously millions of people value what Air 1 represents- just take a look at their recent pledge drive!
